PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Data Science at BINUS University (GPA: 3.85/4.00), with hands-on experience in machine learning, data analytics, predictive modeling, and interactive dashboard development. Proficient in Python, Pandas, and scikit-learn, with foundational SQL knowledge and experience transforming complex datasets into actionable insights. Strong analytical thinking, problem-solving, and collaboration skills, with a passion for developing data-driven solutions that support business decisions.

EDUCATION

BINUS University *Jakarta*

Bachelor of Computer Science (Data Science Streaming Program) *2024 – 2028*

GPA: 3.85/ 4.00 | Relevant coursework : Machine Learning, Data Mining & Visualization, Database Technology, Big Data, Artificial Intelligence, Text Mining, Deep Learning.

RESEARCH & PUBLICATION

"Scholarship Eligibility Profiling Using K-Means Clustering and Comparative Machine Learning"

ICTIM 2026 | 1st Author | Accepted for Publication *August 2026*

Analyzed 10,798 PISA 2022 Brazil student records; generated exploratory eligibility profiles using K-Means and compared five classification models, with SVM achieving 0.983 macro F1 on derived labels. Validated results with cross-validation, feature ablation, permutation importance, leakage checks, and robustness testing.

PROJECTS

Movie Recommender AI | Hybrid Content-Based Movie Recommendation System *Oct 2026*

Live App | GitHub

- Designed a movie recommender for approximately 4,800 TMDB films using Sentence Transformer embeddings plus genre and keyword similarity; ranked top-5 recommendations with a weighted scoring approach.
- Built a FastAPI backend and Next.js interface with typo-tolerant search and interactive movie discovery; deployed the frontend on Vercel.

Hotel Booking Cancellation Analysis | Data Analysis & Dashboard *June 2026*

Dashboard | GitHub

- Analyzed 35,639 hotel bookings using Python and Pandas; found a 32.5% cancellation rate and examined patterns across booking lead time, seasonality, pricing, and special requests.
- Built Excel and React dashboards to communicate business KPIs, cancellation trends, and actionable insights.

Student CGPA Prediction | Machine Learning Regression (Group Project) *May 2026*

GitHub

- Developed a leakage-aware ML pipeline using 1,194 student survey records and 22 features; compared Linear Regression, Lasso, Ridge, and Random Forest with five-fold cross-validation.
- Evaluated model performance using R^2 and MAE, then deployed a Streamlit app for CGPA estimates and student guidance.

Green Pulse | AI-Based Smart Irrigation System *Nov 2025*

Live App | GitHub

- Benchmarked four classification models on 3,000 plant sensor records to classify watering needs using soil moisture, temperature, and humidity.
- Integrated a Logistic Regression model with a FastAPI web app supporting simulated sensor inputs, prediction history, and watering alerts.

EXPERIENCE

STEMpedia | Codeavour 7.0 International Showdown
International Event Operations Associate *May 2026*

- Supported technical setup, registrations, and event operations for an international robotics and AI competition; received an official Letter of Recommendation.

STAMANARA (Dance Organization) | BINUS University
Human Resource Development (HRD) | Event & Finance Committees *Feb 2025 – Feb 2026*

- Supported recruitment and candidate interviews; maintained participant and attendance records and coordinated communications across events. Contributed to budgeting, expense tracking, registration, and cross-organization activity planning.

Orientation Program | BINUS University
Freshmen Leader B29 *Jul 2025 – Sep 2025*

- Mentored 45 incoming Computer Science students, providing academic and campus orientation support while coordinating program activities; achieved a KPI score of 4.00/4.00.

Teach For Indonesia Student Community *Mar 2025 – Jun 2025*
Class Coordinator | ICSC Community Project

- Led a student team supporting an economic empowerment initiative for a local herbal medicine UMKM (CV Caraka Abadi), coordinated activities and prepared progress and evaluation reports.

Friends Care Community (FCC)
Master of Ceremony | BINUS Festival Mental Health Workshop *May 2025*

- Served as Master of Ceremony (MC) for the BIFEST Mental Health Workshop, hosting speaker sessions, maintaining audience engagement, and driving smooth event transitions.
- Partnered with the organizing committee to manage event rundowns, coordinate speaker timelines, and ensure seamless operational execution under live workshop conditions.

TECHNICAL SKILLS

Programming & Web Languages: Python, Java, SQL, C, HTML/CSS.
Machine Learning: Scikit-learn, Regression, Classification, Clustering, Model Evaluation, Cross-Validation
Data Analytics & BI: Data Cleaning, EDA, Data Visualization, KPI Reporting, Excel Dashboards, Data Storytelling.
Libraries & Applications: Pandas, NumPy, FastAPI, Streamlit, Next.js, React
Database & SQL: SQL, relational database, JOIN, aggregation (GROUP BY), subqueries, views, stored procedures, data querying.
Tools: Git/GitHub, Jupyter Notebook, Google Colab, VS Code
Languages: Indonesian (Native), English (Proficient)

LICENSES & CERTIFICATIONS

Data Fundamentals *Oct 2026*
IBM SkillsBuild | *View Digital Badge*

Azure AI Fundamentals (AI-900) — Training Completion *Mar 2026*
Microsoft | Credential ID: 11154112181489/GreatNusa/III/2026

Front-End Development Certification (High Distinction) *Aug 2025*
Bina Nusantara Computer Club | Credential ID: 052/LnT/III/MEMBER/BNCC/MLG/XXXV/08.2025
